

RATIGAN

VILLAIN GUIDE

Ratigan's Objective

Start your turn with The Robot Queen at Buckingham Palace.

Important: Ratigan's Objective can change. If The Robot Queen is discarded from your Realm, your new Objective is to defeat Basil.

Special Setup

Place Ratigan's Objective Tile on the left side of the Board so The Superior Mind is showing.

The Robot Queen

To achieve Ratigan's Objective, you must find The Robot Queen, play it to The Secret Lair, and move it to Buckingham Palace. Plan ahead so you can pay The Robot Queen's Cost, which is normally 15 Power.

Some cards help you find The Robot Queen. If you play Fidget's List, you can later activate it to draw the next Item from your deck. Playing Greatest Criminal Mind lets you either gain Power or draw extra cards.

Other cards help you reduce the Cost to play The Robot Queen. The card Tools is good to play as early as possible, as it reduces the Cost of all Items. The card Gears also reduces the Cost of an Item, but it is discarded when it is used.

Marvelous Trap

Marvelous Trap is a powerful card that can defeat all Heroes at its location, but it must first be set up and takes time to deploy.

First play the trap to any location. Then, when you perform the Activate action, you can pay 1 Power to activate it. Leave the Power on the card to indicate that it's been activated and will go off at the start of your next turn.

If there are no Heroes at the trap's location when it goes off, it is still discarded. If the trap is discarded before it goes off, no Heroes are defeated. When Marvelous Trap is discarded, return the Power on it to the supply.

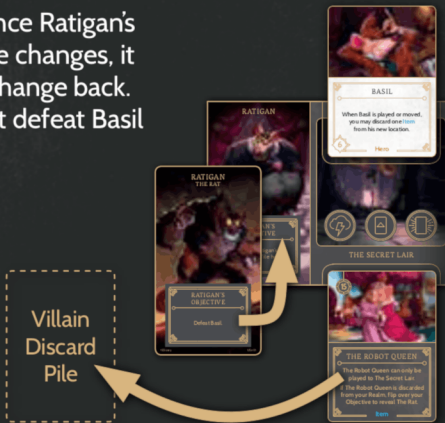

Note: If you have The Robot Queen at Buckingham Palace and The Mouse Queen is defeated with a trap, you do not immediately win. You must wait until the start of your next turn to see if you still achieve your Objective.

The Great Mouse Detective

Basil is Ratigan's most formidable adversary. When Basil is played or moved, he discards an Item from his new location. Some Fate cards can move Basil, making him a constant threat to your Items, including The Robot Queen.

If Basil discards The Robot Queen, flip the Objective Tile so The Rat is showing. Your new Objective is to defeat Basil.

Note: Once Ratigan's Objective changes, it cannot change back. You must defeat Basil to win.

The Secret Lair

Ratigan has a location that can be used to his advantage. The Secret Lair does not have any action symbols at the top, making Heroes at that location less disruptive. Ratigan has Capture cards which allow him to move Heroes to The Secret Lair.

If you capture the Hero Flaversham, you'll reduce the Cost to play The Robot Queen. Your Ally Fidget will help you find and play Flaversham so you can later capture him.

Note: When at The Secret Lair, Heroes' Abilities are still in effect.
